Electives bachelor program "Sustainable Business and Technology" (B.Eng.)

Modules 25, 26, 29 and 30 are to be selected from the elective module catalog for the degree program regulated by these regulations. The catalog of compulsory elective modules is determined and published by the head of the study program. This may be updated on a semesterby-semester basis. Moreover, you also have the option, after consultation with the head of bachelor programm, to take 5 ECTS modules from the bachelor's degree programs offered at the Environmental Campus Birkenfeld. Details are regulated in the applicable module handbook.

The lecture times can be found in the semester plans for the relevant degree programs or groups of degree programs. The timing of the modules can be found in the schedules of the individual modules.

So, the module descriptions for the respective elective modules can also be found in the module manuals of the relevant degree programs.

Electives	WS 2024/25	SS 2025	WS 2025/26	SS 2026
Energy Informatics (Prof. Dr. Henrik te Heesen)	☒	☐	☒	☐
