

CONCEPT FOR COMPANY PORTFOLIO AND INTERFACE BETWEEN COMPANIES AND UNIVERSITIES

PROJECT TYPE

- Projekt work

STUDY COURSES

- Master: BAE, UET, IMAT
- Bachelor: EE, MI, UP, SBT

TIME FRAME

- until 31. August 2020

DESCRIPTION

A concept is to be developed for the environmental technology network Ecoliance Rheinland-Pfalz e. V. so that the companies participating in the network can present themselves in a structured manner for third parties according to their competencies. Furthermore, a platform is to be created for these companies so that students from universities in Rhineland-Palatinate can search for places for internships and theses (Bachelor/Master) according to thematic and content-related focuses. For this purpose, a questionnaire and a portfolio brochure will be developed, prepared and coordinated with the companies. .

TASKS

- Research for possibilities of company presentation in clusters/networks
- Development of a compact and structured brochure for the company presentation, preparation of the brochure with contents and coordination with the companies
- Creation of a questionnaire for companies for offers of internships and final theses
- Support for the integration of content on the Ecoliance website

PREREQUISITES

- Very good communication skills
- Good knowledge of MS Office, especially MS Word
- Good command of English
